

SOVA PRODUCTION presents: "Music is Coming" - a new tour by the LORDS OF THE SOUND orchestra

We, the team of SOVA PRODUCTION, are proud to announce the launch of an exciting new tour across France in 2025, organized by our company. We have been collaborating with the LORDS OF THE SOUND orchestra for several years now, and each time these concerts gather full halls.

"Music is Coming" is an incredible combination of live orchestra sound, vocal ensemble, and the real magic known from your favorite fantasy movies and computer games.

Throughout the vibrant performance by the orchestra members, sounds from renowned films and computer games such as "Game of Thrones," "The Mandalorian," "Vikings," "Dune," "Harry Potter," "The Witcher," "The Lord of the Rings," "Wonder Woman," "The Chronicles of Narnia," "Avatar," "Fantastic Beasts," "Mad Max," "Guardians of the Galaxy," "Mortal Kombat," "Star Wars," "The Matrix," "The Fifth Element," "Pirates of the Caribbean," and many others will resonate.

These films may vary in genre and plot, but they are all united by the real magic beyond Hogwarts, which the LORDS OF THE SOUND orchestra creates through music.

Every note, every conductor's movement, every instrument allows listeners to immerse themselves in other worlds, where fairy tales, myths, dragons, unseen creatures, and supernatural power exist.

Be sure to join us and experience the full power of live musical enchantment!

The "Music is Coming" program will feature musicians from the orchestra, a rock band, talented soloists, and a vocal ensemble.

We promise you an evening of unforgettable experiences and musical wonders!

The total duration of the concert program is approximately 2.5 hours, including an intermission.

SOVA PRODUCTION - your unforgettable musical experiences!
